

To all of our customers,

My promise to you is that every ingredient that goes into any of our menu items, is ethically sourced. I take great care in selecting the best ingredients, from the best suppliers, who believe and live the same values we do. Casalotti's aim is to leave this world a better place as well as leave your bodies in a better state too.

The flour used in our bases is GMO free and non-bleached, our meat is free range and ethically sourced where possible, our veggies come from best practice farmers.

My aim is to change the thinking that take away can be healthy, and I try to achieve this throughout every aspect of our ingredient and supplier sourcing.

With love, happiness and healthiness,

Krystyna Blonski

(founder and owner of Casalotti's)
